

PL400 Compact 22" Aerator

Just as the name implies Plugr Compact goes where other aerators can't. It's easy to maneuver in use and easy to load when cross-town transport is needed. Built with all the premium features as our wider Pro 30" aerator, PL400 is only 22" wide so it can aerate those small, impossible to get to spots that every lawn has.

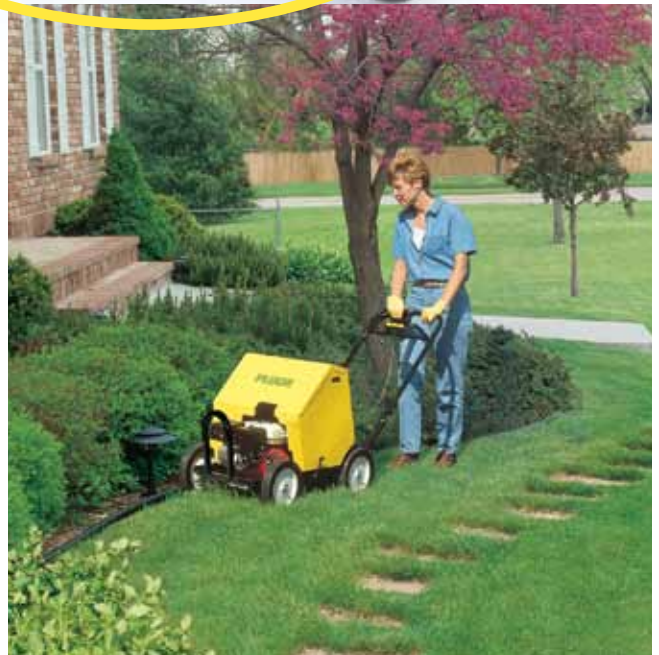

Each pass covers 22" with core spacing of approximately 3.63" x 6". Plugr Compact is easy to transport and store. It weighs only 208 pounds and folds quickly to a 22" width, 30" height and 63" length.

PL400 is designed for small lawn care services or as a convenient smaller addition to existing lawn care fleets and as the perfect machine for rental companies that commonly rent both to homeowners and lawn care specialists.

Let Plugr Compact PL400 get you in and out of tight spots at a surprisingly affordable price without sacrificing aeration quality.

MICHAEL LEGASSE

Green Thumb Lawn Service, Brewer, ME

My aerators just run and run. Plugrs are so simple that all we have to do is occasionally change tines or belts and we are ready to aerate.
