

PL600 Commercial 30"

Whether as part of a rental fleet or a commercial lawn care operation, PL600 will provide low maintenance and user friendly operation with coring results that in most common applications are superior in depth and quality to common rotating tine machines.

Each pass effectively aerates a 30" width with cores up to 2.75" deep and spaced approximately 3.63" x 6". Plugr COMMERCIAL has six tines instead of the eight found on PL800 PRO, making it more affordable yet still comparable to all other rotating tine aerators.

When you seek the perfect balance between function and financial considerations, you can't do better than Plugr COMMERCIAL.

Model Number	PL600
Aeration Width Per Pass	30"
Approx. Core Spacing	3.63" x 6"
Rated Sq. Ft. Per Hour	Up to 27,500
Core Depth	Up to 2.75"
Minimum Gate Width	32"
Number of Tines	6
Approx. Operating Weight	250#
Engine	Honda GX160 Commercial Grade OHV (Approx. 5 HP)
