

DT220 Dethatchr™ Dethatcher

Need a simple, easy-to-use dethatcher but tired of cheap lightweight, hard to operate options? DT220 is built Plugr tough just as you would expect from SourceOne Outdoor Power Equipment.

The standard flail blade assembly will remove thatch without disturbing root structure in virtually any lawn with 11 blade height settings that require no tools to adjust.

Turn your DT220 Dethatchr into a combination one pass seeder with the addition of the optional DT020 Seeder Kit or convert to a slicer with our DT010 Slicer Knife Kit.
